ABOUT US

For more than two years, we have helped many of the corporate houses to re-build their empire in the digital economy. We are now well recognized.

Our focus lies in implementing Internet business solutions such as domain name registration, web hosting, email solutions, high performance dedicated servers, application hosting for e-commerce.

Be it a dedicated server solution for distribution chain management or a small hosting solution, our process & product automation has enabled us to provide the most sophisticated solution at the shortest possible time.

At Zobyssoft, we invest on high quality and future secured technologies. The State-Of-The-Art infrastructure, fully automated control panel and dedicated world class support has been key to our success.

We constantly work on identifying your business needs and developing innovative solutions that address them completely. We future secure your business by constantly updating you on the latest trends of the digital economy.

The power behind zobyssoft is our experienced and energetic team. The State-Of-The-Art server control and In House call center enables Zobyssoft to deliver products and services business customers not only demand, but deserve.

Security

NetScreen Firewall Include ;

Integrated security-optimized hardware, operating system, and firewall, which provide a higher level of security than patched together software-based solutions
NetScreen's ScreenOS software is an ICSA certified stateful inspection firewall
Netscreen's ASIC accelerates encryption and authentication process.

IPSEC VPN capabilities.

Anti-Virus

Our servers run with Mcafe Anti-Virus System.

Scanning is done both On - Access as well as On - Demand.
